Motivated and detail-oriented MCA student with a strong interest in software development, cloud computing, and DevOps. Seeking an opportunity to apply my technical skills and contribute to real-world projects while continuously learning and growing in a professional environment

---

## EDUCATION Master of Computer Applications (MCA)

Bapuji Institute of Engineering & Technology (BIET), Davanagere (2025 – Present)

## Bachelor of Computer Applications (BCA)

Davanagere University (2023 – 2025) | 7.28 CGPA |

---

## TECHNICAL SKILLS

Programming Languages: Python, C, Java

Web Development: HTML, CSS, JavaScript

Database Management: MySQL

Tools & Platforms: VS Code, PyCharm

Areas of Interest: Cloud Computing, DevOps, Web Development

---

## Projects

### Staff leave management system

Developed a web-based staff leave management system with role-based access for Admin, HOD, and Staff. The system allows staff to apply for leave, HODs to approve or reject leave requests, and Admins to manage staff, HODs, and branches. It also includes secure user authentication, profile management, and leave status tracking.

Technologies Used: HTML, CSS, JavaScript, Bootstrap, Python, Flask, SQLite

---

## STRENGTHS

- Good understanding of software development fundamentals Focused and consistent in achieving goals
  - Effective communicator and active team contributor
  - Adaptable to new environments and open to feedback for continuous improvement
- 

## CERTIFICATIONS

- Web Application Development (HTML, CSS, JavaScript)
-
